\$125 for a Scott A3...funny schnit

Gary nothing is showing for those links. well it shows but it just says it ended. Does not say what it is ending for. Also, I did not see a 9wt listed there. Everything that is below 200 is just being bid on, and will almost certainly go for over \$200. The couple that are under \$200 are also being sold by un-authorized dealers. At least from what I can tell. Hey have fun bidding on Ebay with someone you have no idea who they are. Least many people on here have met me.

Meh F it, I am not looking to trade or sell this anymore. I do not want to gouge my PAFF friends.
