Nice!

As far as overplaying them, it's possible to overplay any fish, but as a general rule fish from the minnow family (especially the larger ones - Carp, Fallfish, Chubs, etc) are pretty tough. If you're concerned about overplaying a bigger one, just switch to bigger tippet. Tie on some 10-12 lb mono or something like that instead of the 4x...that should give you some extra muscle/confidence in the line to land them a little quicker.
