Well,

I was doing some research. I'm on internship until the end of march so I should plenty of time on my hands in the evenings. I'm gonna give it a shot.

quick questions:

If I get something like this: <http://tinyurl.com/yjabhq> (cabelas.com)

Will that be enough to get started? Assuming I follow Jack's lead and use my hands, a heavy book, and a box, will I still need something like this: <http://tinyurl.com/y9hzmh> (cabelas.com)?
