I know this has been touched on in the past, but with the article in the latest American Angler magazine, I'd really like to get on some chain pickerel. From what I gather, the closest place to have a shot at these bad boys is Scotts Run Lake in French Creek SP. Where is a good spot within a short drive of Lancaster/Harrisburg to go after these guys. I'll be fishing from my kayak, so access isn't an issue...

Jay says the upper end of Scotts Run is filthy with them. Then you have the freshly stocked trouts AND possibility of state record smallmouth. I'd be interested in hauling the toon up there and doing this with ya. I assume you have midweeks avail?
