Dear wg,

You want to turn off Rte 443 at the big old farmhouse just after you enter Fort Indiantown Gap property. It's huge white farmhouse with a 4 stall garage behind it.

Go about 100 yards and you'll see the Lower Road entrance on your right. When you launch at the ramp paddle around the corner behind the restroom building. That's the pickerel cove.

I don't know if I'll be able to get up there tomorrow. Since my last post I sort of committed to go look at a trolling motor for my canoe so I'll probably be passing you on the road on my way to Willow Street.

Good luck!

Tim Murphy 😊
