Dear gentleshepherd,

It's site number D-3. A replacement valve mechanism is about \$ 20.00 - 30.00 depending on where you get it and if you have tools it's a do it yourself job.

If you had someone do it I'd guess it would cost \$ 150.00 - 250.00 for them to come out and do the repair.

Regards,

Tim Murphy 😊
