CCAS was was in Erie, PA this past weekend for our first steelhead guide trip of the year. Conditions were tough with water conditions on the east side being relatively low until the rains came. However CCAS was able to work it out with our clients catching approximately 10-15 steelhead a piece on Friday. Saturday rains blew out all the streams on both the east and west side of Erie. However we managed to catch a half dozen or so in the morning before the tribs were completely unfishable. Lots of fish were seen on the move so the tribs should be chalked full of fresh chrome! For trip info and more pics of our trip visit www.catchingchrome.com

CCAS will be back in Erie this weekend October 21st thru 23rd or 24th possible if you are in need of guiding services!
