JayL,

You make an excellent point. It's just that I prefer to use light tackle.

Maybe if I purchased a Helios 8wt? But they are \$775, but only 2 7/8oz way lighter than my 5wt Sage..... pricey, but something for me to think about! I'll spend whatever I have to with my fly stuff. What else in life is better to spend money on?

For me the point is: rather than buying a heavyweight fly rod that would be great for big heavy flies, I would rather tie some big light flies that I can use with a 6wt!

Same thing with trout, I like a 3 or 4 wt the best.

Panfish..... a 3 or 4 is fine for this guy.

I really enjoy my fishing. I love to use the best and lightest stuff available.
