I'm w/ Pcray. I use a 6' Phillipson glass rod loaded w/ 6 weight. Its great for tight spots 'cause its just a flip of the wrist to shoot line out.

For the record, that little rod can cast a distance too. I was fishing a small stream on Saturday w/ the rod and came to a rare stretch that opened up about 50ft across. I was bombing casts w/ that little 6' rod. I love that rod.
