Guys,

Read this book a while back, just picked it back up to reread it. It's not a "flyfishing" related book, but it's pretty damn FUNNY!!! "A Walk in the Woods" is written by Bill Bryson and it's his experience of walking the AP Trail with an old friend. If you don't start laughing out loud while reading this book, you are in need of some mental help!!! I bought my book on Amazon for under \$20.
