this map is pretty easy to use, click on the tack for the county of your choice to see producing/currently being drilled/or permitted well sites.

MDZ!!! I laughed out loud! at least I can find a little humor in it all.

melvin, I'd rather not try to think about it. the rigs keep getting closer to me, only a matter of time. I hate to see what it will do to our property values, those of us who don't own our mineral rights or have too little property for it to matter. I would never have bought this place if I knew then what I know now.
