Last night West Pennsboro Township granted conditional approval to a modified plan for a chicken farm on property located along Big Spring Creek. Modified plan calls for 31,000 SF poultry barn located 1,645 feet from the creek. Previous plan called for facility located within 200 feet of creek. Not an expert on these matters, but township approval is conditional upon three conditions:

1. Proof of complete MPDS permit from DEP;
2. Basic modifications to the plan; and
3. Another meeting to see if plan modification were completed to township satisfaction.
