The rod I was fishing was a trout weight rod on a very large trout stream. And yes, it is slightly limited in the types of casts and heads you can use. Switch rods all have their limits.

There are more versatile tools for the larger, deep running water with heavy flies and tips. But, as far as "switch" rods go, the Zpey is not too shabby. IMO.

LEUA = Lake Erie Ultimate Angler.

He carried these rods at one time.
