nice rod fred, looks fun and that extra reach will only bring good things.

based on reports i've read, it seems to be getting better and better so i'm hoping to make it back down again soon. note to self...i NEED to invest in some cleats. I was super careful getting out to maybe 1/4 of the jetty and it was still way too dicey. i ended up fishing the pocket more than anything.

post some pics from the hook again if you guys head east this week!
