Just to let you know, I was looking at the page and noticed that the recipe for my bugger was incorrect. I figure this is due to it just being a draft and things got mixed up

Hook: Size 8 streamer hook, 2xL,  
Olive maribou, chenille and saddle hackle  
silver bead

I tried to correct it, but your explanation of the corrections wasn't very clear. If it still is incorrect, please post or send the entire recipe as you would like it to appear.
