Personally speaking, I wouldn't be opposed to restricting the C & R stretch to the button system that is used in the Conservancy. I know this alone wouldn't solve the problems that are occurring in that stretch, but it might be a good starting point. I know others have been "caught" in the Conservancy without a button and asked to leave. If there is signage clearly indicating that only button holders can fish and it is enforced, perhaps over time things might straighten out.

The one thing LR has going for it is municipal support. Warwick Township takes great pride in the restoration work that has been done on the stream. While elected officials change, I think there is a high degree of involvement with the municipality to make sure that it maintains a restored waterway.
