I here ya, I had been hesitant to join for other reasons too. What changed my mind was going to a work day down on climbers run and meeting the people who are really active in the group. I gotta say I was happily impressed. I was also concerned that there was not one person there my age or younger. TU needs the next generation, if local trout fishing is important to you then TU is something you should seriously consider. I had a chance to walk and talk along clders run with our chapter president and he was very open about the challenges facing our chapter. It is really a good group of people.
