Dano, the Batson blank was the exact one I was looking at. But I didn't know Sage had a 7' 4 wt. I may need to consider that one too.

The Sage TXL has been redesigned and discontinued. The new rod is called the TXL-F. The short 4 weight is now 6' 10" long. It is also 4 piece. My older model is 3 piece. IMHO I REALLY don't see how they could have made the TXL any better.
