The DNR is the Department of Natural resources. This was a lottery trip. They were all caught on hoppers. It was a fun day and nothing more.

This is near the Blue Hole. These fish escape from the hatchery and DNR requires lottery winners to keep the fish they catch in order to reduce the number in the stream. We had to check in and check out.

I have fished all over this country and caught plenty of wild fish. I grew up in Western Pa and had plenty of water to fish, but here in Ohio we are limited to a few trout streams. It was nothing more than the same fun that many of us had as boy's chunkin' a nightcrawler in a stocked stream on the first day.

SBecker- Like the blog, sorry you didn't enjoy the video.
