This was one I came across on Kettle Creek on April 27, 2010 at about 3:00 pm. Again size #14 or even maybe a #12. It was a cool an sunny day.

I was camped at Ole Bull that week, so I checked my journal.

I noted Midges, *P. adoptiva*, *E. subvaria* and a few *M. vicarium* on that day, on Kettle.

I don't know for sure if I'm correct, but I agree with dkile and pcray
