Just an update on the shipping costs: I spoke with Hyde yesterday, and shipping to Philadelphia will cost no more than \$900. Basically, the way they are running it now is that you pay their cost on shipping, capped at \$900. That's a pretty good deal to get from Idaho Falls to here. I drive a Subaru Outback, and even at 28 mpg, I'm still looking at close to \$700 in gas / tolls, and I know I won't be getting 28 on the way back...
