Your good to go with the 9' 8wt. Oceanside I fish a 10' 9 wt and on the sound side I fish a 9' 7wt. We always stay in Avon and that is where I'll fish the sound plus just north of the Canadian hole. Oceanside I mainly fish all the way down to Hatters Inlet but if I hear a good fishing report I check it out. I'll drive the beach looking for drop offs (making a few casts) and bird. Only two other things you will need IMO is a sinking fly line (I fish a full sinking Teeny Saltwater TS650) and a stripping basket (I use an Orvis hard basket) I do not like the folding type stripper baskets. Flies Clousers and Deceivers. If you walk the beach in the morning and/or night for the sunrise/sunset take the fly rod and a hand full of flies.

Joe E.
