Well Dkile himself said the site gets around 170,000 uniques with 5,000 registered members. That means registered members not logged in don't count as one of the 170,000 uniques. And even if everyone had 2 computers and browsed without logging on with their other computer that would still only be 10k out of 170,000.

You can be a smart Alec all you want Jack, you're still not correct.
