I volunteered last year and am again this year. I will be on the Spring Creek Section in Benner Springs. All you have to do is like Dave said. Make sure the rules are being followed which is not hard it's not like there are a bunch of crazy rules. And you also will be measuring each fish caught by the competitor and ensuring it is not foul hooked and barbless hook. It is a good time. At the very least it is nice to watch these guys fish. Most are VERY good fisherman and its amazing the fish they catch and you would be surprised at some of the really general and/or colorful patterns they use. Most of the guys are really nice too and are very appreciative of you volunteering and some of them will give you a few flies to try or some leaders or other trinkets.
