i saw a guy giving demo at the Eastern sports show in Harrisburg thinking about getting it myself but thought i would look to see if anyone here had any ideas on it first. It looks great. I e-mailed customer support a couple questions and got this as a reply: My question was- if i buy the GPS Card how much are the yearly updates? They told me that at last discussion it would be \$9.99/year. If i bought the phone app there was no cost that the updates were free. They also told me that the price of the GPS update may change since the phone app came out. but the GPS update cost is still undetermined. That is all the info i have. was hoping and still am hoping for more reviews.
