I love the pattern and so easy to tie! I actually have my girlfriend tying san juans and zebras for me now. I tie mine in black red, grey, tan and olive. Also will mix and match the colors like red/black, olive black, and florescent orange and black. I too have gotten more strikes at the end of the drift/swing. More often then not I tie 18s-22s but havent gone smaller, perhaps I ought to give it a shot.
