Fox,

You can see there are many ways to tie and fish midges. My patterns are just thread and CDC for the emergers and floaters and various colors of Coats and Clark thread for the pupas (as in Midge Magic). In many of my experiments at various streams in MD, PA and WV, I found the 8, 9 and 10x tippet out produced heavier types except for stained water. That's just my experience.

Lastly, when fishing adults or pupas on top, I use Tiemco's Dry Magic on the CDC wings.

Dale
