Fox - after our PM you inspired me to tie some BWO's. These are not size 30. They are a huge 18 in comparison.

I used what I had and now realize what I need. I had two 18 scud hooks I use for zebra midges, black thread, white CDC, and olive antron.

I tied one w/ a micro fiber tail and one w/ a zelon shuck. I like the CDC tuft but I think the antron makes the body a little thick.

I'm not posting these photos because I think they're good ties. I'm new to tying. Critiques are welcome.
