Charles Meck and Carl Haensel usually do the pattern article. This month's magazine has a bunch of other fly fishing-related articles in it. Over the past few years, I can only recall ever seeing one or two article on watercraft topics (powerboat). I don't know what it used to be like years ago, so can't comment on whether it has declined as far as fly fishing articles go. I'd be curious to see what the subscription breakdown by angler type looks like (bait, fly, etc.). I wouldn't think that many people who are strictly boaters would subscribe to it.
