[Back issues from 1998 to present](#) are available.

And the treasure trove (IMHO) is every issue since 1930, available [here](#). Also, each issue is searchable, so they must have done some rudimentary OCR on the documents; they're not just plain scans, which makes them even more useful.

Reading through some back issues, an angler creel survey on one stream I fish tallied almost 3000 wild trout harvested!!! And I think I'm doing well at catching 50 trout a day out of the stream!
