i think PA angler & boater is a great subscription. it is all solid content w/ basically no ads, and includes articles about every different type of fishable water and covers every different facet of fishing. i do agree w/ some of you guys that the quality of Mecks' flies in the "fly of the month" has been declining steadily w/ each new issue. or maybe i have got a lot better at tying and can now notice a poorly tied fly from a well tied fly better than i could a year ago. just my .02 cents
