That was a nice social experiment for weeding out the Naughty and Nice list. Perhaps the OP was Santa! Remember he watches ALL year.

I only hope it causes some to pause before being judgemental toward other posters.

I'd recommend if one has no meaningful input toward an OP they stay quiet rather than assume the worst.

Another tine to the social experiment....How many wrong minded posts were influenced by the first wrong assumption? Are you followers or just bad judges?

And then there is the "I was misled, assumed wrong and blamed the OP for my misjudgement".

Conversely, had the OP added those small nuggets early on he would have been showered with kudos.

So many things to learn here.

Fabulous!
