Hey Walter, I too am a rookie to the forum just joining a few days ago. I found the information that can be learned on a site like this endless. I also hope to able to contribute with some of my experiences. My first post was a reply in the stream reports section for whoever fishes the "Tully". FI is an old PSU fishing buddy of mine. (Hi Dave, yes I finally got registered) It is great to rekindle some old friendships and look forward to making new ones along the way. Good luck, Walter!
