7/8 weight reel??

I'm fairly new to fly fishing and want to expand my arsenal. I'm looking for a nice 7/8 weight for some heavier fish... pike, walleye, steelhead, etc. I'd prefer something from cabella's only because I have some gift certificates from there and I'm poor. I'd like to spend maybe 150 max but any suggestions are welcome. I'd like a drag system that can be tuned to next to nothing at times. Besides that I'm open to just about anything. Thanks!
