Hey DJS,

It was great meeting you also. I think the success I had on Sunday had more to do with the fact that I was nymphing most of the time while you were fishing on top. I did pick one up on a size 20 tan caddis and missed about 3 others, but the pheasant tail with a WD40 dropped off of the bend was deadly.

It was great to meet Heritage Angler also and pick his brain a little bit. He has some great insight on the LL and the hatches coming back . I hope to meet up with him sometime and learn some more.

Wish I could make it Saturday but I have family obligations. Maybe next time.
