Maurice,

I am still low on the social economic food chain. Charity starts at home bucco. I by no means have it all, there was just nothing in particular that I have been wanting (within a realistic price range). The last thing I want is more "crap" that doesn't work or you never use anyhow.

Ryan, I was just kidding...I am in the same boat. I cannot think of anything that I need or want for flyfishing...Upgrading is not one of my strong suits. If I can make it work I do. I shoulda used a smillie or something..live and learn. 😊

Maurice
