There is an INSANE Hex hatch on the upper miss... check around for exact dates

I spent a few years of summers up there (early May-end of Aug) ... everyday (literaly) on the water...but a little more north- international fall MN/ up into ontario and Manitoba

Bass- they are big an undertargeted

pike/musky- a small/med fish up there is a large PA fish

Every little lake will fish... find a cove or shallow weeds and throw some big streamers
