I went to college with a guy who is in some way involved in the operation of Harman's. Though I didn't know him well, he was quite respected and was always very friendly. Additionally, he has a wildlife and fisheries degree from WVU which I'm sure adds to the quality operation they are running. I'd love to book a couple nights with the wife in early June in a hot tub cabin.

Throw my name in the hat for the giveaway.
