That is absolutely amazing. No amount of PHW/charity publicity should be allowed to off set such activities.

Per the end of the article:

HomeWaters has operations serving the energy industry located near Williamsport, Towanda, Bedford and Erie, Pennsylvania as well as Vail & Steamboat, Colorado and Heber Springs, Arkansas.

For more information contact: Donny Beaver – [DonnyB@HomeWatersClub.com](mailto:DonnyB@HomeWatersClub.com) – mobile 814-571-9779

I did laugh that one of the companies participating is called "New Pig Corporation".

Sorry for the late response, just saw it now, but New Pig is Donny Beaver's company. It's what made him rich. The company produces oil/chemical absorbing "socks." I'm sure that's one of the primary reason he's catering the the energy companies.
