Sorry for the late response, just saw it now, but New Pig is Donny Beaver's company. It's what made him rich. The company produces oil/chemical absorbing "socks." I'm sure that's one of the primary reason he's catering the the energy companies.

The whole thing gets more and more comical.

Now you know what it is like to not be allowed to fish a stretch of water.....sorry i had to ;)

No you didn't "have to". Or maybe you simply don't have the ability not to shoot your trap off. This is a conservation forum. Please go troll somewhere else and/or grow up.
