If you go through the family Heptageniidae on troutnut: [http://www.troutnut.com/hatch/39/Mayf ...s-Quill-Gordons#specimens](http://www.troutnut.com/hatch/39/Mayf...s-Quill-Gordons#specimens)

There are quite a few specimens that look like your first one.

The second one could be the same family, but I think its: <http://www.troutnut.com/specimen/599>

A female iso or Slate Drake (the shape of the eyes and the long antennae is why I think its a Slate).
