I do like Rio Gold. I have windcutter somewhere around here and thought it was OK, not great but just OK. I hadn't put a line on the 3wt reel in 10 years. The 444SL that was on it was cracked and falling apart / dry rotted from lack of use. Don't know what got me to try the LT but don't like it. I'm going to call RIO and see if they'll trade me or give me partial credit.
