RYGuy,

If that's the case, I would stick to nearly all WF lines (5wt is by far the best seller). Maybe carry a few DT5s or DT4s, but WFs are what most FFers want.

Good luck.

Thanks. It's all starting quite small now, but hoping to build it up to a reputable site in the next 6-12 months. My eventual goal is to at least have a series of machined reels made in the USA.
