RC - Thanks for the tip on those River Treads studded boots.

I already have a pair of these boots, and they're the best boots I've ever owned. The new ones are BOA closure, and I'm not sold on the durability of that system. The new ones are also \$200!

I just ordered a second pair, to use while my first pair are drying. FWIW, these boots run true to size. If you wear a size 11 street shoe, the size 11 will fit well, with room for a heavy wool sock, and a pair of thin wicking socks under your waders.

Pat - You might want to jump on this deal if they fit. There's zero risk, as you could always send them back for a full refund....

H.A.
