Afish

Second paragraph down, third line: "..., as long as local communities approve. ". Sounds like the local community does have a say.

that is pertains to NY, not PA. Here, our republican "small" gov has stripped our local authorities of any power regarding MS drilling.

like afish says, it's ok till there is money to be made.

as to the original question, I think you already know the answer. unless you have more money in your pocket than the gas industry, no one is going to listen to you. the Gov doesn't work for the gas industry, the gas industry is becoming our government.
