hex for sure... i have fished hexes on certain section of the Lil Lehigh, there are two sizes of em too usually start hatching end of june sometimes hatch is off an on till third week of july.

Fished it with Joe Kohler who showed me where they hatch and gave me sizes to tie.Used a butterfly net to get samples...been years since i fished that hatch.the darn bugs get spotted on radar because the hatch is that enormous in numbers.Kinda like the bridges that get closed when the white fly hatch is on the Susuquehanna.

Awesome pics thanx for sharing borught back some really great memories.
