I think most people like to match the quality of reel with the quality of rod. No use in tossing a plastic reel on a \$700 rod.

That sounds ridiculous to me. Fishing isn't a fashion statement in my mind. I've got no problem mixing expensive gear with cheap gear.

I got streamerguy beat. I pair my \$1000 rod with a \$30 reel. And I pair my \$90 rod with a \$150 reel.
