seeing that this thread has gone many ways and now towards rods. I think I got my heart set on the 7/8 weight Cabela's SR reel, once I save up enough money for it. Waiting for my new job to get going. By the way, anyone interested in a mortgage or refinance PM me . Ok all kidding a side. I also have the same problem with my line wrapping around the end of my fly rod but seems like everyone has help for it. I would actually like to know what would be a good rod to match my future reel. I would like a 9' - 9'6" graphite, once again keeping price reasonable but yet a good match to the quality of the reel. I'm excited to have the chance to catch some larger fish on a fly and hopefully won't have to wait too long to do so. Thanks again everyone you are a HUGE help!
