LM Bass go to fly?

Question- (Sorry, I am New to fly fishing.)

I like to fish for LM bass, usually at Marsh Creek Lake in SE PA.

With spinning gear, I have alot of success with a version of the "SENKO". My "go to" bait.

Now with fly fishing I am sort of lost.

Is there a favorite "go to" fly/bait for bass for fly fishing?

Any help will be appreciated.

Thanks,

Tom
