"good reels go on clearance all the time for sometimes half the price. Just be patient and save and when the deal presents itself, jump on it."

Another place to find great deal is on Ebay. Often I see "lightly used" and "new" reels for great prices. Some are in auctions but others are "Buy now" listed.

I bid on a very lightly used (looks brand new) Abel Creek 2 LA. This reel lists for \$320 and I got it for \$175.

Another reel was "Buy now" a Lamson Litespeed 2, it lists for \$299 and I got it for \$165 shipping included.
